

ABOUT RHINO LININGS®

Rhino Linings® pioneered spray-on polyurethane for bed liners in 1983 in South Africa.

We became world renowned for our automotive bed liners but our applications have grown beyond just automotive uses. Today our products can be found in a range of other industries and applications.

For almost 40 years Rhino Linings® has been the trusted name in polyurethane applications for protection of assets.

Why?

EXCLUSIVE PARTNER

HERE ARE SOME OF THE TOP REASONS OUR CUSTOMERS KEEP CHOOSING RHINO LININGS®

IMPACT PROTECTION

Our thick durable coating protects your surface from dents caused by impact.

RUST PROTECTION

The air and watertight seal formed with the substrate prevents corrosion setting in.

CUSTOM FIT

Custom sprayed to fit every contour of any vehicle no matter the year or make.

COMPATIBLE

No difficulties fitting other accessories like canopies, roll tops or slide trays.

INCREASED RESALE VALUE

Eliminating rust or paint scratches improves the look & resale value of your vehicle.

ENVIRONMENTALLY FRIENDLY

No VOC's or CFC's in our spray-applied chemicals means a healthier environment.

CHEMICAL RESISTANT

Resists attack from most short term exposure incl. chemicals like fuels and fertilizers.

SAME DAY RETURN TO SERVICE

Chemicals set in seconds and vehicles are ready to return to service the same day.

LESS ROAD NOISE

Not only because it acts as noise insulation but it doesn't vibrate like drop-in liners.

NO CRACK, WARP OR PEELING

Unlike some other liners our products contain UV protection shielding damaging sun exposure.

TOUGH ENOUGH FOR WAR

Military applications include blast mitigation and protecting military assets globally.

SPRAY-APPLIED

Our products are spray applied and forms a permanent, air- and watertight bond.

AUTOMOTIVE

A genuine Rhino is not only tough by nature but also by design and it outperforms any other type of liner available. It allows your vehicle to perform the way it was meant to perform.

WATERPROOFING

Rhino Linings® Elastomer coatings are spray applied and forms a seamless, air- and watertight bond to the substrate making it an ideal waterproofing solution.

MINING

Rhino Linings products® have been tried and proven in harsh mining environments and have been shown to improve efficiency and assist in predicting planned maintenance.

FLOORING

Rhino Linings® offer seamless flooring applications that are Chemical, Acid, Temperature and Impact Resistant. Our Floor Coatings are solvent free, easily applied and most offer a quick return to service.

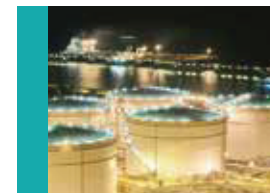

MARINE

Our products are able to offer industrial grade protection for any marine vessel. Our products offer seamless and more hygienic spray-applied lining that is easy to keep clean and resists attack from a number of corrosive elements.

INDUSTRIAL

Our thick durable coatings have proven successful in various applications areas including agricultural, mining, petrochemical, telecommunications and various other industries.

CONTAINMENT

Wherever you require primary or secondary containment and whether it is above or below ground we have a solution to meet your needs no matter how small or how large the application area.
